

By attending the Carolina Recycling Coalition Conference you will receive Continuing Education Credits through the Carolina Recycling University (CRU).

The CRU was developed as a way to advance recycling and waste reduction in the Carolinas by offering trainings and qualifying people in the creation, operation and management of recycling and waste reduction programs and services.

All inquiries regarding the CRC and their upcoming Conference may be directed to the CRA:

**The Collegiate Recyclers Coalition (CRC)
is a coalition of the Carolina Recycling Association (CRA).**

Our Mission

The mission of the Collegiate Recyclers Coalition (CRC) is to promote sustainable resource use through waste reduction, reuse, and recycling on college campuses and to facilitate networking, exchange of information and strategic action.

History

The CRC was founded in 1990 by a group of concerned collegiate recycling coordinators with the goal of sharing information to develop more comprehensive and supportive RRR programs across North and South Carolina. Since that time, the CRC has hosted six conferences, increased its membership by 200% and successfully grown to become a well-respected organization in the recycling community.

The CRC is Chaired by Kathy Boutin-Pasterz, Recycling Coordinator at UNC Charlotte. The CRC has successfully held many educational workshops/trainings and organized tours of local University Recycling Programs for CRC members and those interested in Collegiate Recycling. **Contact Kathy:** kboutin@uncc.edu
